

Dear Barb,

11/5/94

Ray Kurpis has become a friend. We both like him. He has visited us when his corp. has a meeting in Baltimore.

If the people at AARC, which may now mean only overworked Jim Lesar, had the time I am sure Bud Fensterwald got some of those Miami JFL files. He got to be friends with Max Gerstein when G was DA. I think the Milteer info is a time-waster. I used it as one helluva way to investigate. I can't remember the name of the Florida reporter I helped get about nine volumes of the FBI's Somerset files. He knows more about Milteer than anyone I know. I think the State AG wound up with some of their files. The WC did not, not that I recall. Perhaps HSCA got what they had.

Lil is looking through my upstairs Milteer file. If the name is there I'll add it.

She found an article I enclose. Last I heard he was with the Miami Daily News, both AG 305s, office, 376-3627, home 763-8778. May not be in Miami. If you are in touch, please give him our best.

Which is what we send all of you,

Harold
